UPDATE, SAFEHOME X-Serie, 278050-NordicX

This update will improve image quality when uploading images to FTP or sending mail on alarm.

Please follow the procedure below:

- Save the update file to your computer.
- Log on to the camera and go to the menu *System/Maintenance.*
- Click *Gennemse* in the *Firmware Upgrade* line and locate the update file gc_solve_email_picture_update4(1).pkg.
- Click Upgrade

SAFE HOME	Live Video	Set Up
Device Configuration	Status Time Others	Multiple Settings Maintenance About
